| ABOUT THIS PROGRAMME

The Informatica cloud migration is the biggest movement in enterprise data integration in 2026 — every PowerCenter shop is moving to IICS / IDMC, and the consultants who can lead that migration are commanding Rs 15-30 LPA. This programme is built for ETL developers and cloud engineers. You'll cover the full IDMC platform — Data Integration, Application Integration, Cloud Data Quality, Mass Ingestion, and the Gen AI layer Informatica now ships. By the end you'll have led a mock migration project end-to-end.

| BUILT FOR

- PowerCenter developers upgrading to cloud (IICS / IDMC)
- ETL devs moving into cloud-native integration
- Career switchers targeting cloud data integration roles

OUR COMMITMENT

Job-focused training. Real instructors. Lifetime access. We don't sell certificates — we get you hired.

WHY NOW · 2026 MARKET SIGNAL

Informatica's cloud-first push made IICS the must-have skill for every existing customer. The migration window is 2025-2028 — be the engineer who leads it.

01

IICS hiring up 145% YoY
(Informatica partner ecosystem)

02

Mid-level IICS consultants
negotiating Rs 18-22 LPA

03

Most PowerCenter shops are
budgeting for full IICS migration by
2027

| TECHNOLOGY STACK

Technologies you'll master

The exact stack senior engineers + consultants are billing for in 2026 — nothing taught for show, everything taught because it lands on a job posting.

- Informatica Intelligent Cloud Services (IICS) / IDMC
- Cloud Data Integration (CDI) — mappings, mapping configurations, taskflows
- Cloud Application Integration (CAI) — process designer, service connectors
- Cloud Mass Ingestion (CMI) — bulk + CDC ingestion
- Data Integration Hub + Cloud Data Quality (CDQ)
- Connectors — Salesforce, Workday, SAP, Snowflake, AWS, Azure
- REST + SOAP service consumption + publication
- Secure Agent installation + management
- Parameter files + dynamic mapping execution

| WHY THIS PROGRAMME

What makes this different

- ✓ Full IDMC platform: Data Integration, Application Integration, Data Quality
- ✓ CLAIRES GPT and AI assistants for IICS mapping generation
- ✓ Mock migration project: PowerCenter mappings → IICS taskflows end-to-end
- ✓ Secure Agent setup and on-premise integration patterns
- ✓ Mass Ingestion for databases, files, and streaming sources
- ✓ Performance tuning and monitoring with Operational Insights
- ✓ Real cloud connectivity — Snowflake, S3, ADLS, Redshift, BigQuery
- ✓ Interview prep with senior-grade IICS architecture scenarios

CAREER OUTCOMES

By the end, you will be able to

- ✓ Build production taskflows and mappings in IICS Data Integration
- ✓ Migrate PowerCenter assets to IICS using the official migration utilities
- ✓ Design cloud-to-cloud integrations with Snowflake, S3, and Salesforce
- ✓ Implement Mass Ingestion for high-volume database and file ingestion
- ✓ Configure Secure Agents and advanced runtime environments
- ✓ Use Application Integration for event-driven and API-based workflows
- ✓ Pass IICS Developer and Architect interviews at services and product cos
- ✓ Position for Rs 10-25 LPA cloud data integration roles

SALARY OPPORTUNITIES

Job roles + earning potential

Indian-market salary bands for 2026, sourced from active listings on Naukri, LinkedIn, and Instahyre. Bands assume the certifications and projects this programme delivers.

	JOB ROLE	EXPERIENCE	SALARY
01	Informatica IICS Developer (Junior)	Fresher to 1+ Years	5-8 LPA
02	Cloud Data Integration Engineer	1 to 3+ Years	8-12 LPA
03	ETL Developer (IICS / Informatica Cloud)	2 to 4+ Years	10-15 LPA
04	Application Integration Specialist (CAI)	2 to 4+ Years	12-18 LPA
05	Data Migration Specialist (IICS + Cloud)	3 to 5+ Years	14-20 LPA
06	Data Integration Consultant	4 to 6+ Years	18-28 LPA
07	IICS Admin / Secure Agent Specialist	4 to 6+ Years	15-25 LPA
08	API Integration Developer	5 to 7+ Years	20-30 LPA
09	Cloud Integration Architect	7 to 10+ Years	30-50 LPA
10	BI & Data Engineer	6 to 9+ Years	22-35 LPA

CAREER PATHS

Roles you can target

Roles ordered from entry → senior. The same role titles you'll see on Naukri, LinkedIn, and Instahyre filtered to the tech stack you'll master.

- IICS / IDMC Developer
- Cloud Data Integration Engineer
- Informatica Cloud Consultant
- Cloud ETL Developer
- Senior IICS Developer
- Data Integration Architect

Emerging — high-demand roles for 2026

Roles that didn't exist five years ago, paying premium because the talent pool is small.

- Cloud Data Quality Engineer
- Data Mesh Integration Engineer
- Real-Time Integration Specialist

CAREER TRAJECTORY

Where this programme leads, in 5 years

Median 2026 salary bands for the role progression this curriculum unlocks. Numbers are conservative — top performers cross the upper band earlier.

YEAR 1

IICS Developer

Rs 6-12 LPA

Migrate first PowerCenter project.
Ship cloud taskflows.

YEAR 3

Senior Cloud Integration Consultant

Rs 14-22 LPA

Lead enterprise migrations. Own technical decisions.

YEAR 5

Cloud Data Architect

Rs 24-40 LPA

Design integration strategy across business units.

COURSE CURRICULUM

What you'll build, module by module

Every module is taught hands-on with real datasets, instances, or codebases — not slides. By the end, you'll have built, not just watched.

Part 1 — IICS CDI (Cloud Data Integration)

- Difference between Informatica PowerCenter and I...
- IICS Architecture
- IICS Secure Agent Installation
- IICS Login and Overview
- Connectors in IICS
- Connect Oracle DB with IICS
- Connect Salesforce with IICS
- Connect Snowflake Cloud with IICS
- Connect Google Cloud Platform with IICS
- Connect Amazon Web Services (AWS) with IICS
- Create a New Project in IICS Dashboard
- Create a Folder under the Project
- Create a Mapping in IICS canvas
- Complete source and target properties in IICS Map...
- Working with Mapping Configuration Task
- Monitoring the IICS Jobs
- Synchronize the fields
- Reusable Transformations
- Source Transformation with Realtime Example and ...
- Target Transformation with Realtime Example and ...
- Filter Transformation with Realtime Example and it...
- Router Transformation with Realtime Example and ...
- Working with flat files
- Expression Transformation with Realtime Example ...
- Aggregator Transformation with Realtime Exampl...
- Joiner Transformation with Realtime Example and i...
- Union Transformation with Realtime Example and it...
- Rank Transformation with Realtime Example and it...
- Lookup Transformation with Realtime Example and...
- Dynamic Lookup Cache with Realtime Example and ...
- Un-Connected Transformation with Realtime Exam...
- Sequence Generator Transformation with Realtime...
- Transaction Control Transformation with Realtime ...
- Normalizer Transformation with Realtime Example ...
- Java Transformation with Realtime Example and its...
- SQL Transformation with Realtime Example and its ...
- Mapping Parameters
- Parameter Panel, Input and In-Out Parameters in II...
- Connection Parameters
- Using Parameter File Directory and Parameter File ...
- Invoking parameters from Task flow
- Flow Run Order in IICS
- Implementation of Incremental Loading in IICS with ...
- Implementation of SCD type-1 and Type-2 in IICS wi...
- Implementation of Fact Load in IICS with Realtime E...
- Different Environments used in real time. (Detailed ...
- Expression Macros
- Horizontal Macros
- Vertical Macros
- Hybrid Macros
- Dynamic Linking
- User Defined functions
- Fixed width file Format
- Saved Query
- Shared Sequence
- Mapping Task with all Properties. (Scheduling in IICS)
- Synchronization Task with Realtime Example (Sales...
- Replication Task with a Realtime Example
- PowerCenter Task with a Realtime Example
- Linear Task Flows in IICS
- Task Flows in IICS
- Assignment
- Data Task
- Notification Task
- Command Task
- File Watch Task
- Decision
- Sub Task

Part 2 — IICS CAI (Cloud Application Integration)

- What is API
- Why we need API
- Advantages of API
- REST API
- SOAP API
- POSTMAN tool to call API
- Setup and Signing-in
- Create Projects Working
- Application Integration Console
- Create a new Process in Processes
- Properties of the Processes
- Using Assignment
- Calling MCT or TASK created in CDI from CAI using ...
- Using Decision
- Service Connectors
- Configure Service Connector using Form. (Action, In...
- App Connections
- Write the data to a flat file/Database
- Using JDBC Connection
- Process Schedules – Execution Schedules
- Service Connectors
- xQuery
- Share the DB Data using API
- Using JDBC Connection
- Process Schedules – Execution Schedules
- Implementing Token Base API
- GET and POST Response
- Get_Token, serviceUrl
- GetActivityDetails
- Expose API to Client
- Create a Connection using Swagger File
- Service Connector from WSDL
- Service Connector from Swagger
- Service Connector from OpenAPI 3.0
- Data access Service Connector using Form
- Create and Configure REST V2 Connector
- Create Business Service
- Web Services Transformation
- Create Manager API
- IP Filtering
- Create Custom API
- API Registry
- API Groups
- Policies
- Analytics
- API Registry
- API Groups
- Home
- Alerts
- All Infra Structure
- Application Integration
- Data Integration
- API Groups
- Structure Parser Transformation with Realtime Exa...
- Read the data from Excel file
- Data Masking Transformation with Realtime Exam...
- Task Flow In-out Parameter
- Audit Framework
- Read Parameter in Taskflow Level

I INSTRUCTED BY

Trained by working practitioners

Not academics. Not pre-recorded YouTubers. Engineers and consultants who still ship production code at top companies — the exact people you want to learn from.

Mr. Nataraj V (Raj)

Industry Trainer

A seasoned Business Intelligence Consultant with over 16 years of experience in Data Warehousing, ETL, Cloud Data Integration, and Business Intelligence technologies. He has successfully delivered large-scale projects across multiple domains and trained more than 8,000+ professionals worldwide on Informatica PowerCenter and IICS (CDI + CAI). Known for his practical, real-time teaching approach, Raj has helped countless learners including many with no prior IT background — transform their careers and secure jobs in leading organizations. His focus on hands-on learning, resume building, and interview preparation has made him one of the most sought-after trainers in the field of data integration and cloud technologies.

APPROVED TRAINER · RAJ CLOUD TECHNOLOGIES

WHAT'S INCLUDED

Everything you get beyond the curriculum

The sessions are the tip. Here's the full value stack a single fee unlocks — mentorship, community, career support, and lifetime updates.

- + Lifetime access to recordings — re-watch any session, forever
- + Private community access — get unblocked in minutes, not days
- + 1:1 mentor reviews on every portfolio project you build
- + Weekly doubt-clearing sessions led by the instructor
- + Resume + LinkedIn rewrite by a working hiring manager
- + Two full mock interviews with real-time feedback
- + Interview question bank — 50+ scenario-based questions
- + Real-world datasets + playground accounts you keep
- + Verifiable course completion certificate
- + Lifetime curriculum updates — when modules refresh, you get them

ENROLMENT

Pick your tier and enrol

Two tiers — pick what fits your budget. Both include lifetime access to recordings and a verifiable certificate.

MOST POPULAR

LIVE + RECORDED

Rs 18,999

- ✓ All live sessions + Q&A
- ✓ Lifetime recordings
- ✓ Doubt-clearing sessions
- ✓ Resume + interview prep
- ✓ Certificate of completion

RECORDED ONLY

Rs 13,299

Save Rs 5,700

- ✓ Lifetime access to recordings
- ✓ Self-paced learning
- ✓ Certificate of completion
- ✗ No live sessions
- ✗ No live Q&A

HOW TO ENROL

Three steps to your seat

01 Book a free demo

30-min walk-through with the instructor — ask anything before you commit.

02 Pick your tier + enrol

Live + Recorded or Recorded-only. UPI, card, EMI — all accepted.

03 Start on day one

Onboarding kit, course portal access, and your first live session calendar invite.

| HOW WE STACK UP

Compared to your alternatives

Free tutorials and generic bootcamps both have their place. Here's exactly where they fall short — and where the fee here pays for itself.

WHAT YOU GET	FREE YOUTUBE TUTORIALS	GENERIC BOOTCAMPS	RAJ CLOUD
Live practitioner instructors	×	×	✓
Real datasets + playground accounts	×	partial	✓
1:1 mentor reviews on your portfolio	×	×	✓
Mock interviews with feedback	×	partial	✓
Resume + LinkedIn rewrite	×	×	✓
Job referral network access	×	×	✓
Lifetime updates + recordings	partial	×	✓
Verifiable certificate	×	✓	✓

| QUESTIONS ANSWERED

Common questions, answered upfront

Q. Do I need prior experience to start?

Most students begin with little to no experience. We assume only basic computer literacy. The first two weeks ramp you up to the level the rest of the curriculum needs — no one is left behind.

Q. What if I miss a live session?

Recordings are uploaded within 24 hours of every session. Weekly doubt-clearing sessions catch you up on missed material. Your community is active 24/7. Nothing gets lost, only delayed.

Q. Is there a job placement guarantee?

We don't promise placement — we engineer outcomes. Resume + LinkedIn rewrite, two mock interviews, a referral network, and portfolio reviews are all included. The work happens; the offer is yours to earn.

Q. Can I pay in instalments?

Yes. UPI EMI, credit-card EMI, and a 3-month no-cost split-pay are all supported. Email admissions and we'll set up a plan that fits your cash flow.

Q. Does the certificate hold weight in interviews?

Yes. It's dated, verifiable via our website, and signed by the trainer. Alumni reference it on LinkedIn and inside offer-stage interview rounds — but the portfolio you build matters more, and that's the point.
